

Questions to ask your doctor about the procedure:

1. *How do I know if Lipogems is right for me?*
2. *How much discomfort is usually associated with this procedure?*
3. *What should I expect immediately after and a few weeks after the procedure?*
4. *Do I need medication after my procedure?*
5. *What can help my recovery?*
6. *When can I start getting back to normal activities?*
7. *When should I start to feel relief?*
